

**2008-2009
4th Grade Workbook
Teacher's Key**

Name: _____

A Close Look at MyPyramid

For Kids

MyPyramid for Kids reminds you to be physically active every day, or most days, and to make healthy food choices. Every part of the new symbol has a message for you. Can you figure it out?

Be Physically Active Every Day

The person climbing the stairs reminds you to do something active every day, like running, walking the dog, playing, swimming, biking, or climbing lots of stairs.

Choose Healthier Foods From Each Group

Why are the colored stripes wider at the bottom of the pyramid? Every food group has foods that you should eat more often than others; these foods are at the bottom of the pyramid.

Eat More From Some Food Groups Than Others

Did you notice that some of the color stripes are wider than others? The different sizes remind you to choose more foods from the food groups with the widest stripes.

Every Color Every Day

The colors orange, green, red, yellow, blue, and purple represent the five different food groups plus oils. Remember to eat foods from all food groups every day.

Make Choices That Are Right for You

MyPyramid.gov is a Web site that will give everyone in the family personal ideas on how to eat better and exercise more.

Take One Step at a Time

You do not need to change overnight what you eat and how you exercise. Just start with one new, good thing, and add a new one every day.

For information on obesity prevention or food stamps, call 1-888-328-3483. This material was funded by the USDA's Food Stamp Program, an equal opportunity provider and employer.

Introduction

Harvest of the Month is a program that your class will participate in this year. Through this program, you will try fruits and vegetables that you may have never tasted before. All of these fruits and vegetables are grown in California and will be in season, which is when they are more affordable and most fresh.

Fruits and vegetables are full of vitamins and minerals that your growing body needs. Look on the left page to find where fruits and vegetables are part of MyPyramid.

For information on obesity prevention or food stamps, call 1-888-328-3483. This material was funded by the USDA's Food Stamp Program, an equal opportunity provider and employer.

You do not need to carry measuring cups with you to eat your recommended amount of fruits and vegetables. The key to a healthy life is in your hands!

1/2 cup of fruit

1/2 cup of vegetables

1 cup of fruit

1 cup of raw leafy greens

1/2 cup of vegetables

1/2 cup of vegetables

1/4 cup of dried fruit

Fruit or Vegetable	I liked it	I am not sure if I liked it	I did not like it	I will try this again	Why it is good for me
Tomato 					
Winter Squash 					
Persimmon 					
Dried Fruit 					
Mandarin 					
Cabbage 					
Peas 					
Asparagus 					
Avocado 					
Peach 					

September Tomatoes

**Did you
know?**

- Tomatoes are a high source of vitamins A and C.
- Tomatoes contain lycopene (*LY-koh-peen*).
- Lycopene is a powerful antioxidant that decreases the risk of certain cancers and heart disease.
- Antioxidants help prevent damage to cells and they keep the immune system healthy.

What I learned about tomatoes: _____

My Goal!
I will eat ___ cups
of tomatoes this
week.

List 3 ways you can eat tomatoes:

- 1) _____
- 2) _____
- 3) _____

Tomato Nutrition Facts

Serving Size: 1 cup

32 calories 0 grams (g) total fat
9 milligrams (mg) sodium
7 g carbohydrate 2 g dietary fiber
5 g sugar 2 g protein
2 % calcium 30 % vitamin A
38 % vitamin C 3 % iron

Nutrition Facts

Serving Size: 1 cup, chopped, red tomato (180g)

Calories 32

Reading Comprehension 2.0
 Statistics, Data Analysis, and Probability 1.0
 Essential Concepts 4.1.N.1, Goal Setting: 4.3.N.13

Making a Plan

Using the chart below, find out how many cups of fruits and vegetables you should eat every day.

Boys			
	Age 9	Age 10	Age 11
Fruits	1 1/2 cups	1 1/2 cups	2 cups
Vegetables	2 1/2 cups	2 1/2 cups	2 1/2 cups
Girls			
	Age 9	Age 10	Age 11
Fruits	1 1/2 cups	1 1/2 cups	1 1/2 cups
Vegetables	2 cups	2 1/2 cups	2 1/2 cups

Please note: The recommended cups of fruits and vegetables listed on this chart are based on moderately active individuals (30-60 minutes of physical activity per day) from MyPyramid.gov.

Make a plan for how you will include fruits and vegetables in every meal.

For breakfast, I will eat _____

For lunch, I will choose _____

For dinner, I will at _____

I am currently eating ____ cups of fruit and ____ cups of vegetables. I will need to eat ____ cups of fruit and ____ cups of vegetables to reach my goal.

October Winter Squash

**Did you
know?**

- Winter squash are a high source of vitamins A, C, and fiber.
- Vitamin A is important to maintain healthy vision.
- Fiber are parts of plant foods that your body can't digest.
- Fiber has many benefits, including keeping your digestive tract healthy.

What I learned about winter squash: _____

My Goal!

I will eat _____ cups
of yellow vegetables
or squash this week.

List 3 adjectives that describe winter squash:

- 1) _____
2) _____
3) _____

Acorn Squash

Spaghetti Squash

Turban Squash

Carnival Squash

- 1) How many grams of fiber are in 1 cup of cooked winter squash? 6g
- 2) What is the percent of the Daily Value for vitamin A? 214%
- 3) What is the percent of the Daily Value for vitamin C? 33%
- 4) Does winter squash have protein? yes
- 5) How many grams of protein does 1 cup of cooked winter squash have? 2g

Nutrition Facts

Vitamin A 214% Vitamin C 33% Calcium 5% Iron 5%	

Source: www.nutritiondata.com

How do I grow?
Let's take a look!

How to Read the Nutrition Facts Label

1 Pay attention to the serving size, especially how many servings there are in the food package. Then ask yourself, "How many servings am I eating?"

What is the serving size for the macaroni & cheese? 1 cup

2 Calories provide a measure of how much energy you get from a serving of food.

How many calories are in the whole container? 500

3 Eating too much fat, saturated fat, *trans* fat, cholesterol, or sodium may increase your risk of certain chronic diseases, like heart disease, some cancers, or high blood pressure.

4 Eating enough of these nutrients can improve your health and help reduce the risk of some diseases and conditions.

5 The percent (%) Daily Value on a food label tells you how this food can help meet daily goals. Look at the label to the right for macaroni and cheese. You can see that 1 cup of macaroni & cheese provides 4 percent of vitamin A. So that means you would have to eat other foods to get 100% of the vitamin A needed each day.

Sample label for
Macaroni & Cheese

Nutrition Facts	
Serving Size 1 cup (228g)	
Servings Per Container 2	
Amount Per Serving	
Calories 250	Calories from Fat 110
	% Daily Value*
Total Fat 12g	18%
Saturated Fat 3g	15%
Trans Fat 3g	
Cholesterol 30mg	10%
Sodium 470mg	20%
Total Carbohydrate 31g	10%
Dietary Fiber 0g	0%
Sugars 5g	
Protein 5g	
Vitamin A	4%
Vitamin C	2%
Calcium	20%
Iron	4%

The % **Daily Value** shows whether that food is high or low in a certain nutrient:

5% or less = Low Source

10-19% = Good Source

20% or more = High Source

Source: <http://www.cfsan.fda.gov/~dms/foodlab.html>

1) The percent Daily Value for calcium is 20%, is that a low, good, or high source?

high

2) Identify two parts of the food label that can help you make a healthy choice

You can start with serving size and then determine calories, total fat, and sodium. Foods that have % DVs that exceed 20% of the above mentioned should be limited. Encourage students to consume fruits, vegetables, whole grains, low-fat dairy, lean meats and beans.

November Persimmons

**Did you
know?**

- There are 2 different forms of fiber: soluble and insoluble.
- Persimmons are a high source of fiber, mostly in the form of soluble fiber.
- Soluble fiber has been shown to protect against heart disease.

What I learned about persimmons: _____

List 3 other orange or red colored fruits:

- 1) _____
- 2) _____
- 3) _____

My Goal!

I will eat _____ cups of
persimmons or
another orange fruit
this week.

Hachiya

Fuyu

- 1) How many grams of fiber are in 1 medium persimmon? **6g**
- 2) What is the percent of your Daily Value for vitamin A? **55%**
- 3) What is the percent of your Daily Value for vitamin C? **21%**
- 4) Are persimmons high in vitamin A, C, and fiber? **yes**
- 5) Why is it important to eat fiber containing foods?

(Hint: look back at October).

Keeps your digestive tract healthy.

Can help prevent heart disease.

Nutrition Facts

Serving Size: 1 medium persimmon (168g)

**Persimmons grow on a tree!
Color the persimmon flower!**

Setting Healthy Goals

When we want to make a positive change in our lives, it helps to set goals. You can set goals to be more physically active or eat better (by eating more fruits and vegetables, drinking more non-fat milk, and choosing more whole grains).

Steps to Setting a Goal:

- 1) Define your goal.
- 2) Write down the small steps you will take to achieve your goal.
- 3) Set a deadline.

1) My goal is to _____

2) To achieve this goal, I need to take the following steps:

a) _____

b) _____

c) _____

3) I will achieve my goal by _____

December Dried Fruit

**Did you
know?**

- Dried fruit contains potassium.
- The body needs potassium to maintain muscle contractions and a healthy nervous system.
- California is the world's leader in dried plums, producing about 65 percent of the world's supply.

What I learned about dried fruits: _____

My Goal!
I will eat ____ cups
of dried fruit this
week.

List 3 examples of dried fruit:

- 1) _____
- 2) _____
- 3) _____

Raisins

Date

Dried Plum

Dried Fig

Dried plums (prunes), raisins, and dried apricots are dried fruit that contain some iron. Iron is important to make hemoglobin [hē-mə-glō-bən], a substance in red blood cells that carries oxygen to the rest of your body. Iron is a mineral that can be found in soil, air, water, and in the plants and animals we use for food.

1) How much iron is found in 1/4 cup of raisins? **6%.**

2) Iron is an important mineral for your body.

Your body needs iron to make hemoglobin.

Nutrition Facts

Serving Size: 1/4 cup raisins (40g)

B

C

Directions: Underline the action verb in each sentence below.

1. My teacher cut dried plums for our class to taste.
2. I chopped the vegetables.
3. I mixed the salad with a big spoon.
4. People should wash fresh fruits and vegetables before they eat them.
5. I eat a nutritious breakfast every morning to start the day.

Directions: Make a list of action verbs in the box below. Then, write a sentence using one of your action verbs to describe one healthy action you will do this week.

My action verbs

Examples:

Mix

Blended

Cut

_____	_____	_____
_____	_____	_____
_____	_____	_____

My healthy action sentence

January Mandarins

**Did you
know?**

- Mandarins are a high source of vitamin C.
- Mandarins are also a good source of vitamin A.
- Satsumas, Clementines, and Minneola tangelos are the State's top three mandarin varieties.

What I learned about mandarins: _____

My Goal!
I will eat _____
mandarins or
oranges this
week.

List 3 ways you can include mandarins in your meals:

- 1) _____
- 2) _____
- 3) _____

Vitamin C is an antioxidant [an-tē-āk-sə-dənt].

Antioxidants:

- Help prevent damage to cells
- Can promote healthy vision
- Keep the immune system healthy
- Help your heart stay healthy and help prevent cancer

- 1) What is the percent Daily Value of vitamin C found in 1 medium mandarin? 39%
- 2) Flip back to October's worksheet on winter squash. What is the percent Daily Value of vitamin C found in 1 cup of winter squash? 33%. Which food has a higher percentage Daily Value of vitamin C per serving? mandarin
- 3) I will try to eat more fruits and vegetables because they contain antioxidants. Antioxidants help my body because any of the reasons from the above bullet points

Compare and Contrast

Learn to use a Venn Diagram

To **compare** means to tell how things, events, or characters are **alike** in some ways.

To **contrast** means to tell how things, events, or characters are **different**.

Directions: Think about a fruit you tasted in the classroom (or in the past) and compare it to a mandarin. List how they are alike and different to complete the Venn diagram below.

February Cabbage

**Did
you
know?**

- Cabbage is a high source of vitamin C and K.
- Vitamin K helps to make proteins that cause your blood to clot. When you have a cut, vitamin K helps stop the bleeding.
- Opening of trade with Asia in the late 19th century brought Chinese cabbage to California.

What I learned about cabbage: _____

My Goal!

I will eat _____ cups
of cabbage or other
green vegetables
this week.

List 3 ways you can eat cabbage:

- 1) _____
- 2) _____
- 3) _____

Red (Purple) Cabbage

Savoy Cabbage

Chinese Cabbage

Green Cabbage

Cabbage is a high source of vitamin C. Vitamin C:

- Helps keep your gums healthy
 - Helps heal cuts and wounds
 - Helps fight germs
- 1) Refer to last month's worksheet on mandarins. Vitamin C is an example of an antioxidant.
 - 2) What is the percent Daily Value of vitamin C found in 1 cup of shredded, raw savoy cabbage? 36%
Is this percent Daily Value low, good, or high? high
 - 3) My body would benefit from eating more fruits and vegetables that contain vitamin C because
any of the reasons from the above bullet points

Cabbage grow above the ground. Color in the different parts of a cabbage!

Eat a Rainbow!

Have you ever heard your teacher tell you that it is important to eat a rainbow? That's because fruits and vegetables come in a rainbow of colors and they all contain different nutrients that help your body grow. Make sure you eat a rainbow of colorful fruits and vegetables every day!

Write a paragraph explaining why it is important to eat a variety of colored fruits and vegetables and how you will eat more of them everyday.

March Peas

**Did you
know?**

- Cooked green peas are a high source of vitamin A.
- A half-cup of cooked green peas have 4 grams of protein.
- Edible-pod peas are a good source of fiber.

What I learned about peas: _____

My Goal!

I will eat _____
cups of peas
this week.

List 3 ways you can include peas in your meals:

1) _____

2) _____

3) _____

Snow Peas

Peas are a high source of vitamin A. Vitamin A helps your eyes see better in low light and helps protect your skin and body tissues from infection.

- 1) Name two other fruits or vegetables that you have tasted this year which are a high source of vitamin A.

Any 2: **persimmon**, **winter squash**, **tomato**

- 2) Why do you think it is important to eat fruits and vegetables everyday? _____

Nutrition Facts

Serving Size: 1/2 cup green peas, cooked (80g)

I grow on a vine or on a bush. Color in the pea!

Pea

Pod

Use MyPyramid to make HEALTHY food choices!

Directions: Color in each section of the MyPyramid and then list foods that belong in each group.

Grains

Make half your grains whole

Any food made from wheat, rice, oats, cornmeal, barley or another cereal grain is a grain product. Bread, pasta, oatmeal, breakfast cereals, tortillas, and grits are examples of grain products.

Vegetables

Vary your veggies

Any vegetable or 100% vegetable juice counts as a member of the vegetable group.

Fruits

Focus on fruits

Any fruit or 100% fruit juice counts as part of the fruit group.

Grains

Vegetables

Fruits

Milk

Meat & Beans

Oils are not a food group, but you need some for good health. Get your oils from fish, nuts, and liquid oils such as corn oil, soybean oil, and canola oil.

April Asparagus

**Did you
know?**

- Asparagus is a high source of vitamin K and folate.
- Asparagus is a good source of vitamin A and vitamin C.
- In proper conditions, asparagus can grow as much as one inch per hour—up to 12 inches in one day.

What I learned about asparagus: _____

My Goal!

I will eat ____ cups of
asparagus or other
green vegetables
this week.

List 3 ways you can cook asparagus:

- 1) _____
- 2) _____
- 3) _____

Asparagus is a high source of folate. Sometimes folate is called folic acid. Folate is one of the several types of B vitamins. Each type of B vitamin has a special role in the body. Folate helps:

- **Make new body cells**
- **Form hemoglobin (remember December's lesson?)**
- **Protect against heart disease**

Citrus fruits, dried beans, spinach, broccoli, and avocados are good sources of folate.

1) Explain why eating asparagus can help your body.

any of the reasons from the above bullet points

Nutrition Facts

Serving Size: ½ cup asparagus, cooked (90g)
Calories 20 or about 5 spears **Calories from Fat 2**

How do I grow?
Let's take a look!

Directions: Using descriptive words, create a poem about asparagus to share with your class.

Example:

Apples

Apples are red, round and sweet
So delicious to eat
They are firm, solid and bright
Just an absolute delight!

Brainstorm: List some descriptive words that can be used in your poem.

Nutritious

Fill in the blanks to create your poem.

_____ is _____, _____ and _____

So _____ to _____

They are _____, _____ and _____

Just a(n) _____ !

May Avocados

Did
you
know?

- Avocados are a source of antioxidants, including vitamin E.
- Avocados are a source of many minerals including potassium, iron, magnesium, and manganese.
- Native to the tropics of Central America, the avocado tree originated in southern Mexico and Columbia around 5,000 B.C.E.

What I learned about avocados: _____

I will eat ____
cups of avocados
or other green
fruit this week.

List 3 ways you can add avocados to your meals:

- 1) _____
- 2) _____
- 3) _____

Most of the fat in avocados is considered "healthy". "Healthy" fats are unsaturated fats and they can help your heart. However, not all fats are created equal! The less healthier fats are saturated fat and trans fat. You should eat less of these fats. A food label tells you how much total fat (healthy and unhealthy) there is. To find out how much of this total fat is "healthy" sometimes you need to do some math.

- 1) If you know the amount of total fat, saturated fat, and trans fat, can you calculate the amount of unsaturated fat?
(Look at the grams (g), not the percent Daily Value)

$$\begin{array}{rcl} \text{Total Fat (g)} & \underline{5g} & \\ \text{Saturated Fat (g)} & \underline{1g} & \text{(subtract)} \\ \text{Trans Fat (g)} & \underline{0g} & \text{(subtract)} \\ \hline & = \underline{4g} & \text{Unsaturated Fat (g)} \end{array}$$

- 2) List 2 reasons why avocados can keep your body healthy.
a source of antioxidants and unsaturated fats can help your heart

Nutrition Facts

Serving Size: 1/4 cup avocado, sliced (30g)

Avocados grow on a tree. Take a look inside!

exocarp
endocarp
seed
pulp
skin
mesocarp

Foods at the top of the pyramid generally have more added sugars, fat, and sodium. These foods should be eaten less often.

Whole foods containing less added sugar, fat, and sodium belong at the bottom. These foods are generally a healthier choice than processed foods.

The top of the MyPyramid is more narrow than the bottom. This helps determine which foods are more **nutritious** for you. For example, low-fat milk would be placed at the bottom of the MILK group and ice cream would be placed at the top.

Directions: Practice determining which foods belong at the bottom or top of the MyPyramid.

	<u>Processed with added fat & sugar</u>	<u>Whole food with little or no added fat & sugar</u>
Apple Candy	<u> X </u>	<u> </u>
Ice Cream	<u> X </u>	<u> </u>
Avocado	<u> </u>	<u> X </u>
Buttered/Salted Popcorn	<u> X </u>	<u> </u>
French Fries	<u> X </u>	<u> </u>
Baked Potato	<u> </u>	<u> X </u>

Whole Wheat Bread	<u> </u>	<u> X </u>
Non-fat Milk	<u> </u>	<u> X </u>
Baked Chicken	<u> </u>	<u> X </u>
Apple	<u> </u>	<u> X </u>

June Peaches

Did you know?

- Peaches are a good source of vitamin C.
- Peaches are a source of potassium.
- The peach comes from a fruit-bearing tree of the rose family and is native to China.

What I learned about peaches: _____

My Goal!
I will eat _____
cups of peaches
or orange/yellow
fruits this week.

List 3 ways you can add peaches to your meals:

- 1) _____
- 2) _____
- 3) _____

- 1) Peaches are a good source of vitamin A and vitamin C.
- 2) Vitamin C, is also known as an antioxidant. This can help promote heart or vision health, and keep the immune system healthy.
(Hint: look at the mandarin worksheet)
- 3) List 6 fruits or vegetables that are a good or high source of vitamin C from this workbook.

_____ tomato _____ winter squash _____

_____ persimmon _____ mandarin _____

_____ cabbage _____ peas _____

Alternatives: asparagus, peaches

For information on obesity prevention or food stamps, call 1-888-328-3483. This material was funded by the USDA's Food Stamp Program, an equal opportunity provider and employer.

Acknowledgements

This Harvest of the Month workbook was created in collaboration with Downey Unified School District's *Network for a Healthy California* who developed Kindergarten through 2nd grade workbooks and ABC Unified School District's *Network for a Healthy California* who developed 3rd through 6th grade workbooks. We would also like to thank Hawthorne and Montebello Unified School District's *Network for a Healthy California* staff for sharing their lessons, creativity, and passion for nutrition education.

This material was funded by USDA's Food Stamp Program through the California Department of Public Health's *Network for a Healthy California*. These institutions are equal opportunity providers and employers. The Food Stamp Program provides nutrition assistance to people with low income. It can help buy nutritious foods for a better diet. For information on the Food Stamp Program, call 1-888-328-3483.
